LC6450GP2 V2.2

Silent Giant Series - Green Power Edition

The GREEN POWER EDITION of the SILENT GIANT SERIES by LC-POWER offers the optimum price-performance ratio: thanks to its high-value 140mm fan, the LC6450GP2 V2.2 lets you experience a stress-free and super-silent work in your office as well as at home. Despite the low sound level, the power supply offers an excellent cooling capacity for your system thanks to its honeycomb styled ventilation grille on its back.

The power supply features all current connectors of the office and mid-range sector. Besides current mainboards you can connect several SATA and PATA hard disk drives respectively optical drives. A floppy disk drive can be added as well as powerful graphic cards with PCI-Express connector.

The state-of-the-art energy saving technology decreases the power consumption in standby mode (1W) and increases the efficiency of the power supply up to 80%!

Including PFC (power factor correction for an efficient use of the spent energy) and all relevant safety circuitry.
